

MRS. SUSIE B

AND FOR THE FIRST TIME A LOOK AT THE TRUE LIVES OF HER

TERRIFYING TUBERS

Ed and Michael go down the Kings Arms every Wednesday night. They have 2 Stellas each then they drive to the woods and go dogging.

Tina looked at the mole and swore it was looking back, a tiny brown eye on the underside of her knee.

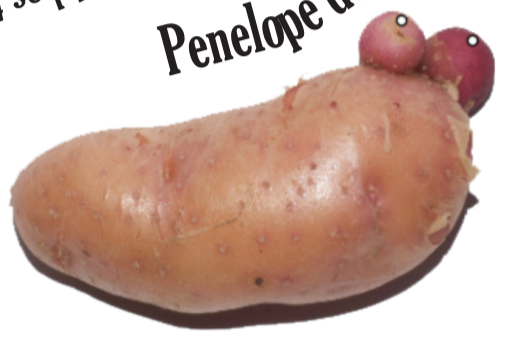

Grant tumbles through the air, heading toward the water.

Tim drinks too much coffee and has trouble sleeping.

Penelope doesn't talk to strangers

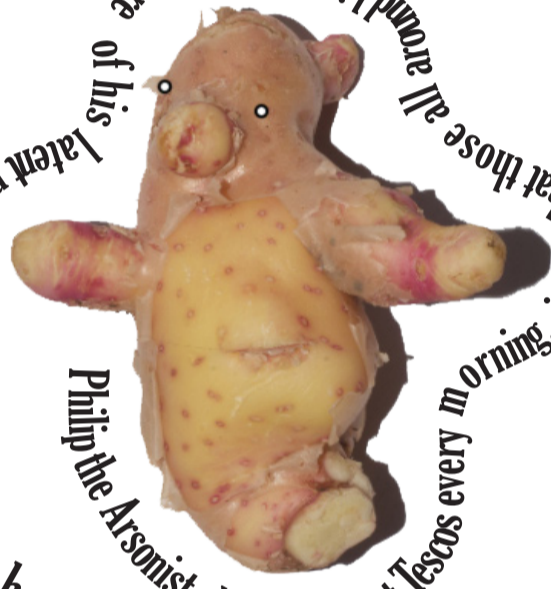

Every night Andy dreams of ravaging giggling Geisha girls in Japan.

Terence has a club foot, but has never let this impede his lascivious lifestyle.

Philip the Arsonist skips to work at Tesco's every morning, jubilant that those all around him remain unaware of his latent pyromania.

As Dorset's premiere Shania Twain impersonator, Daniella has to do 478 one handed push-ups every weekday that begins with a T or an S.

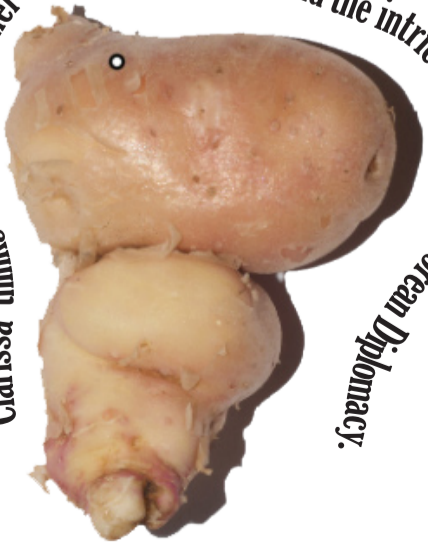

Karen cuts out page 3 from the Sun and sleeps with them all under her pillow.

Even the weather doesn't interest Bill any more.

Clarissa thinks of nothing but her Sturdy Matron Shelf and the intricacies of North Korean Diplomacy.

Miriam had a hard heart, like a particularly small walnut.

Eve unfortunately passed away during the making of this poster. She would love to be a glamour model.

Amanda doesn't have any friends. But then she doesn't have a TV license either and that's a poster.
